CHILDREN TO OPEN XMAS SEAL SALE

TEACHERS WILL OBTAIN SEALS AT C. OF C. ROOMS TOMORROW

TAG DAY SAT., DEC. 20

Grade Pupils to get Supply from Their Teacher. High School Faculty Meets Tonight.

Miss Maria Hart of the High school will be at the Chamber of Commerce rooms tomorrow afternoon from 5 to 5:30 o'clock to give out Red Cross Christmas seals to all grade teachers. The pupils in the grade can get their seals from their teacher.

For a number of years the school children have sold these seals the sale of which is a part of the National Tuberculosis association work for the relief and prevention of tuberculosis. It will be more difficult for them to the work this year on account of the schools being closed. Many children have expressed the desire to want to sell them as usual and Prof. Bert Cooper, chairman of the Junior Red Cross organization, does not want to deprive them of the opportunity of doing this philanthropic work, if the schools closed.

The plan is for each student to obtain the seals form his or her teacher and begin selling them Wednesday morning and continue the sale the day before Christmas.

The High school students are asked to have a tag day for the seal sale on Saturday, Dec. 20. The high school teachers will meet tonight at seven o'clock with Miss Hart at 131 South Main street to make plans for this tag day.

The pupils of Miss Ruby Irwin can get seals from her at Hotchkins store. Mrs. Gray's pupils will find her at the Mayor's office in the basement of the city library and the pupils of Mrs. Cora Lyle will find her at Mrs. French dressmaking rooms over the Yehle dry goods store.

YOUNG PEOPLE TO K FOR CHRISTMAS EVE SING

Will Hold General Meeting Tonight to Organize all Singers in Christmas Carol Groups.

All the young people of the city, and especially those affiliated with the various Sunday school are asked to come to a meeting tonight at the First Christian church, for the purpose of planning an organization for the singing of Christmas carols on Christmas eve. This meeting is under the direction of the young people's department of the Nodaway County Sunday school association and in charge of Miss Bertha Anderson, head of the girl's department, Prof. A. H. Cooper, head of the boy's department, of the county organization and Dr. Jessie Clark of township superintendent of young people.

All the boys and girls in the young peoples' department of the Sunday school and the heads of this division in all the churches is expected to attend tonight. The plan is to organize the singers into groups and distribute these groups in the different wards of the city, so that each group of singers does not have a large territory to cover.

The singers expect to visit every home in the city in which lighted candle is placed in a window, showing the inmates would appreciate a call from the singers.

The meeting is to be held at 7:30 o'clock.

WORLD STILL RIGHT SIDE UP AFTER WEDNESDAY

Harvard Scientist Says we Need Fear No Calamity from Peculiar Figuuration of Planets.

New York, Dec. 15.—The world need fear no calamitous effects from the peculiar configuration of the planets that will take place next Wednesday, according to a statement by Dr. Harlan T. Stetson of the Harvard astronomical laboratory, issued here today. The prediction of floods, electrical storms, riots and other disturbances of far reaching effect credited recently to a popular meteorological scientist, are based on nothing more substantial than "hot air," Doctor Stetson said.

"There is absolutely no scientific foundation for predicting any of the other phenomena such as riots, which have been described as possibilities," he continued. "We can rest assured that our lives will remain untroubled on Dec. 17, by anything which could be traced to the position of the planets.

On Dec. 17, according to the Harvard scientist, all the planets with the exception of the earth, will lie in an approximate line with the sun and all of them except Uranus, will be on the same side of the sun. They will be strung along in approximately the same plane and approximately the same line, like so many points on one spoke of a wheel. Meanwhile Uranus will be on the same line but on the other side of the sun, like the point on the spoke directly opposite.

CITY COMMITTEE LIFTS FUEL BAN

ALL BUSINESS RESTRICTION PRACTICALLY REMOVED TOMORROW

MOVIE HOUSES NOW OPEN

Stores are Urged to Cut their Consumption of Light to the Minimum —Should Use Wood

The fuel committee after due consideration have concluded that on account of the hearty response of the public in the conservation of fuel and in voluntary labor, together with the slight betterment of the coal situation, that we are able to modify the restrictions heretofor imposed.

We must urge upon the people, however, that the crisis is not over and that we can hope to receive but a limited amount of coal for the next thirty days, and we urge that everyone burn wood with their coal in order that the supply may be conserved as much as possible and that all business places, lodges and churches having their own heating plants refrain from buying any more coal until further notice from us and heat their places with wood.

We also urge that the stores, offices and business houses cut their consumption of light to the minimum and dispense with all window and outside lights and that in the homes the consumption of light and fuel be cut to the minimum. These measures being necessary in order to hold the load at the light plant within the limits of one boiler power.

DR. COILE PRESENTS HIS RESIGNATION TO CHURCH

First Presbyterian Pastor Goes January 1, to McCausland Avenue Church in St. Louis.

Dr. S. A. Coile, pastor of the Presbyterian church, formally tendered his resignation as pastor of the church body yesterday morning. Dr. Coile had been called to the pastorate of the McCausland Avenue Presbyterian church of St. Louis and his resignation as pastor of the Maryville church had been placed with the official board the first of the week subject to acceptance by the congregation. The resignation was accepted Sunday morning and a committee with Prof. G. H. Colbert, chairman, was appointed to draft resolutions expressing the universal regret of the church at the departure of Dr. Coile and Mrs. Coile. Dr. Coile's resignation takes effect the first of the year when he immediately assumes his work at the McCausland avenue church.

TURKEY IS FAVORED FEAST DAY FOWL

Raising Now on Decrease in United States, Is Profitable Side Line of Farming.

Turkey is the favored fowl at holiday tables. But turkey raising is on the decrease in the United States. This is because many turkeys range through the grain fields of adjacent farms and thus become a cause of neighborhood ill will, while the high morality among young poults as ordinarily cared for on the farm, outbreaks of such serious diseases as blackhead, and serious losses from predatory animals have all tended to discourage turkey raising. However, for people favorably situated raising of turkeys is one of the most profitable side lines which can be combined with general farming.

Given plenty of range, turkeys will rustle for grasshoppers an dother insects, green vegetation, weed and grass seed, waste grain, acorns, chestnuts and delicious meat at a minimum expense. Plenty of range is essential to success in turkey raising, and usually the discouraging results have come from attempts to raise the fowls under close confinement.

It is a free for all choice as to what breed the farmer will raise. Six varieties of domestic turkeys, including the American Bronze, the White Holland, Bourbon Red, Black, Narragansett and Slate varieties of domestic turkeys, are recognized by the American standard of perfection. Because the Bronze turkey is heaviest, it is most popular among turkey raisers, as the fowls are sold by weight. Generally speaking, other conditions being equal the Bronze is the hardiest variety, the Bourbon Red and the White Holland are the most domestic, while the White Holland is the most prolific.

Turkeys are fattened for market from about the 1st of October up to selling time. They are fed just enough so that they go away still feeling a little hungry. The quantity is gradually increased until they are given all they will clean up three times a day during the week before marketing. Some turkey raisers feed wheat and oats during the first part of the fattening season, gradually changing to corn as the weather becomes cooler. New corn can be fed safely if the turkeys are gradually accustomed to it by feeding lightly at first. As a rule, it has not paid to confine turkeys during the fattening period, as they lose appetite and get off feed when pened up. Nuts of various kinds are a natural fattening feed picked up by the turkeys on the range. Of these beech nuts chestnuts, pecans, and acorns ar ethose most commonly used. Many Texas turkey raisers, depend solely upon acorns for fattening their turkeys, and when such mast is plentiful the birds are marketed in fairly good condition.

RULES VALID WAR TIME PROHIBITION

SUPREME COURT HOLDS LAW TO BE CONSTITUTIONAL

CHANGES STATE DECISION

Rules that Law's Validity to be Changed only by National Conditions.

Washington, Dec. 15.—The United States supreme court today held the war time prohibition law constitutional and reversed the decision of the district court of Kentucky permitting the removal of whiskey from bond for beverage purposes and affirmed the decision of the New York court declaring the law constitutional. The court further ruled the war time act valid in its inception and that its validity could be changed only by change in national conditions.

The supreme court handed down no decision in the two and seventy-five per cent beer case. The court announced a recess from Monday, December 22, to Monday, January 5.

HARVARD PRESIDENT WOULD AID GERMAN PROFESSOR IF—

Cambridge, Mass.—President Lowell of Harvard is willing to help Professor Keibel of Germany get his books and instruments which have been taken from him by France, but—

Mr. Lowell's letter to Professor Franz Keibel of the University of Koenigsberg, Germany, follows:

"My Dear Sir—Your letter of August 18 has come complaining that your books, instruments and other private scientific property have been restrained by the French government at Strassbourg, and asking me to use my influence to procure their return.

"If you can prove to me that you protested against the burning of the library at Louvain and that you endeavored to secure protection and such treatment as you now request for the professors of the universities in the Belgium and French territory occupied by the Germans, then I will exert any influence that I may possess to procure the return of your personal scientific property.

"Very truly yours,
"A. LAWRENCE LOWELL."

PLAN YACHT RACES FOR OLYMPIC GAMES IN 1920.

London.—In connection with the Olympic games which are to be held in Belgium next there will be four day yacht racing at Ostend. The dates are already fixed July 11 to 14, inclusive. Each nation will be invited to send one competitor for each class, and it is hoped that races will be arranged for all classes adopted at the recent international conference, although it is unlikely that next year will see any of the biggest class vessels built.

If rumor can be relied on there might be some 15 metre boats out, and there has never been keener racing in that class. It will be to the smaller boats, however that sport and we might see quite a number of newly adopted classes of small, inexpensive boats built in the different yachting districts.

Folowing the Oympic races there is quite a long linst of coninentla regattas already arranged.

PRESIDENT HAS NO PEACE TREATY COMPROMISE IN MIND

Hold Republican Members of Senate Responsible for Conditions Attending Delay.

Washington, Dec. 15.—President Wilson yesterday intervened in the peace treaty dilemma with an announcement that he had "no compromise or concession of any kind in mind," would make no move toward the treaty deposition, and would continue to hold the Republican members of the senate responsible for results and conditions attending the delay.

Washington, Dec. 15.—The peace treaty situation today is a hopeless dead lock. The announcement from the White House that the president plans no compromise brought disappointment to the friends of the treaty who hoped the president would arrange common ground for settlement.

COAL PRODUCTION NEARING NORMAL

SITUATION IN KANSAS AND OHIO CONTINUES SERIOUS

APPOINTS A COMMISSION

Attorney General Palmer asks Postponement of Selection Until all all Miners Return to Work.

Washington, Dec. 15.—The coal production reached eighty per cent normal today, it was announced today by the railroad administration following early reports from the coal fields. In Kansas and Ohio alone production is still below normal an dthe situation is regarded as serious in these states.

President Wilson is expecting to appoint a coal commission today, it was stated at the White House today. Attorney General Palmer has asked the appointment of the commission be withheld until he is assured all have returned to work.

IMPROVED METHODS NEEDED ON HIGH PRICED LAND.

With the greatly increased land values now prevailing over the country the land owner must adopt better systems of farm management or suffer financial loss. The latest and most approved methods on soil improvement will be presented as a part of the program for Farmer's Week at the University of Missouri College of Agriculture in Columbia, January 19 to 23, 1920.

There are two common methods of increasing crop production on a farm, says R. R. Hudelson of the soils department. One is to use more labor, and the other is to build up fertility so that each days labor will bring a bigger return. More labor is almost out of the question at present but increased fertility may be gained by a more intelligent management or by the use of fertilizer materials which have not advanced as much as the price of crops.

The staff of the College of Agriculture will present their latest findings on such subjects as the methods followed by farmers living on the high est priced lands of the world, the best methods of using manure and fertilizer for corn, the home grinding of limestones to be given as an actual demonstration with grinding machinery and spreaders, the prevention of the enormous wast due to soil washing, and numerous other subjects relating to soil improvement.

The farmer who attends this big farmers' convention will not only be put in touch with the latest sources of information in the experiment stations but will come in contact with hundreds of farmers who are meeting the same problems that confront him.

CALIFORNIA REPUBLICANS ASK TREATY BE RATIFIED

San Francisco, Cal.—Nearly forty prominent California Republicans have telegraphed Will H. Hays, chairman of the Republican National Committee, a joint appeal to urge Republican Senators to ratify the peace treaty immediately without reservations or amendments which would require its resubmission. Their telegram, made public today by the California branch of the League to Enforce Peace read:

"The undersigned Republicans of California, concerned for their party and their country, respectfully urge upon you and the other members of the Republican National Committee the necessity for the immediate ratification of the peace treaty and the duty which rest upon you a sthe present official representatives of our party to urge the Republican Senators to recede from their refusal to pass the treaty without amendments or reservations of such character as substantially to alter its character and to require its resubmission to our allies and to Germany. The defeat of the treaty and a separate peace with Gerany will be a betrayal of our allies and a victory for Germany. It will mean a continuance of the present chaotic conditions in Europe, with indescribable suffering there and certain reaction here. The responsibility for this if the treaty fails cannot be shifted or concealed. It will rest upon the majority of the Republican Senators, and through them, upon the party and the issue, which should not be a party, will be made so. Upon this issue we are confident that the vast majority of the Republicans in this state, at least, are in favor of the treaty and the position of the Republican Senators will seriously damage the party."

The Maytag
Electric Washer for Christmas

If you think a washing machine a strange Christmas present to give your wife—

ask Her

No doubt you'll want to give her some nice little personal gift and a box of candy, but don't let it go at that—make the REAL PRESENT—one that will lighten her labor and brighten her Blue Mondays.

THE MAYTAG ELECTRIC

is one of the best washers we have ever handled. It is compact, taking up less room than a tub on a bench. The motor is directly under the tub and is completely enclosed so there is not the slightest danger of injuring it or of anything getting into it. Gearing is also protected and clothes can not be caught in the wheels.

It is absolutely controlled by one hand lever on top of the machine where it can be instantly grasped. This lever controls the power of both washer and wringer and the wringer may be instantly reversed so that danger of clothes winding around the rolls or getting the fingers caught is reduced to a minimum.

The tub of the Maytag is best grade cypress bound with strong iron bands, and will last for many years. The tub is so tightly closed when washer is running that boiling water will remain hot for an entire washing of three or four tubs full.

You can wash and wring at the same time with the Maytag and a good sized washing may be done in less than an hour. The Maytag has the peg dolly type of washer, is absolutely smooth on the nsie of tub and will wash clothes clean and white without injuring the finest fabric.

You can run a lace handkerchief or a bed quilt through the Maytag wringer.

The Maytag Electric will save many an hour of work, many a gallon of water and many a hod of coal besides being an investment in health, happiness and comfort for HER.

We have a good supply of Maytags on hand—get yours and we will deliver it on Christmas day.

Insist on Genuine Ford Parts

Imitation "Ford" parts are being sold by many mail-order houses, down-town stores and garages to unsuspecting Ford owners as "Ford" parts. But they are not Genuine Ford parts made by the Ford Motor Company. They are made by concerns who have no connection whatsoever with the Ford Motor Company. These imitation parts are not even made from the same grade of steel, or under the same formulas used by the Ford Company. They are counterfeit parts. Tests have shown them to break when the genuine Ford parts didn't even bend, and they generally are from thirty-five to one hundred per cent lower in quality.

The Authorized Ford Dealer is your protection. As such, we handle nothing but the Genuine Ford parts. They are made from the famous Ford Vanadium Steel and each part—according to its use—is heat-treated in the way that will give it the longest wearing qualities. Every part is the same as its duplicate in your Ford car or Ford truck.

Our stock of parts is complete. And our Ford garage and Ford mechanics are at your service at all times. Drive in when replacements or repairs for your Ford car may be necessary. Save your car and also your money.

Good Advice

If you are sick and know what ails you, go to any drug store, the druggist will advise you the kind of medicine to buy. It may do you good. His services are free. If your eyesight fails and you know what is the matter with your eyes you can go to a store where they sell glasses. The dealer will test your eyes and sell you glasses. They may help you. His services are free. But if you are sick and dont' know what is the matter with you, call on an efficient doctor practicing medicine. He will cure you. If your eyesight fails, you don't know why they have failed. You have no way of knowing unless you have been a student of an optical college. Call on an efficient doctor of optics. He will carefully examine your eyes and fit them with glasses which will restore your vision and cure headache, if it is caused by eyestrain. Women of Missouri Suffer Pains and Aches

Kirksville, Mo.—"I was a sufferer and had to give up because I was all run-down, due to feminine weakness. I suffered with pains and aches continually. Was about as miserable as one could be, and just two bottles of Dr. Pierce's Favorite Prescription cured me of this ailment and I felt better than I had for a long time. I have since enjoyed good health. I can recommend 'Favorite Prescription' to women who suffer."—MRS. A. P. SCOTT, 1001 N. Franklin St.

Run-Down, Nervous, Weak

Kansas City, Mo.:—"I found Dr. Pierce's Favorite Prescription to be just what is claimed of it as a woman's medicine. During middle life I was all run-down, nervous and weak, could not eat nor sleep well; did not have a bit of strength, would be tired and worn-out all the time. I knew I must have medicine and finally decided to try 'Favorite Prescription' and it was just the thing I needed as it brought me through in a good strong healthy condition. I always recommend it to my friends, many of whom have taken it with just as good results."—MRS. ALBERT LEEDOM, 5002 Michigan Ave.

Motherhood

St. Louis, Mo.:—"After motherhood I developed woman's trouble. I suffered with inflammation and became very weak and thin. Suffered with backaches all the time and was a miserable nervous wreck when I was advised to try Dr. Pierce's medicine. I took two bottles of the 'Favorite Prescription' and used one box of 'Suppositories.' These medicines made me feel like a new person and my good health returned. 'Favorite Prescription' is an excellent medicine for women."—MRS. WM. GEORGE, 4120 Lee Place.

Dr. Pierce's Favorite Prescription can now be had in tablet form as well as liquid at most drug stores. Send to Doctor Pierce's Invalids' Hotel, Buffalo, N. Y., for a ten-cent trial package of tablets.

I was there to make a sketch of her. Luncheon was just over, and she was talking to a little knot of women. The first words I heard, as I slid quietly into a nearby seat, were: "National Biscuit," recalling pleasantly my own tasty Uneeda Luncheon. I liked her, and fortably as she spoke again, my pencil and ears busy.

"Between the dark and daylight," she was quoting, "there's always a bit of pause when mother seems waiting and listening—for the children. Since they were little things, I've given that hour to babies. First I had to Then, when they to toddle, I me in my Children's

For the tiny toddlers there is a varied menu, sometimes Uneeda Biscuit and milk, sometimes Graham Cracker Oatmeal Crackers or Lunch Biscuit. This is changed on special occasions to Old Time Sugar Cookies or Fig Newtons and, rarest of treats, on days when we had ice cream and Nabiscos. And those were our parties. "Don't Hour, but always dainty, always as appetizing as only National Biscuit Products can be. During the years when my babies were growing up we never missed the Children's Hour with its tasty feast.

The BRUNSWICK Method of Reproduction

Two Original Ideas Made It Famous

THE BRUNSWICK Phonograph is the creation of the highest type of phonograph-building genius.

It is a combination of the good features of all makes.

Old time crudities are discarded.

Added to that is its famous Method of Reproduction.

Making possible the Method are two exclusive features. By them, all record music is played finer, sweeter, richer.

They are the ULTONA and the TONE AMPLIFIER.

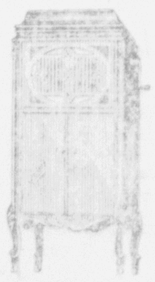
The ULTONA—a scientific Brunswick creation—is universal in adaption and simple in structure.

It plays all records infinitely better.

It is not a makeshift contrivance nor so-called combination attachment, but a patent that involves genuine fundamental principles of sound.

With but a slight turn of the hand it presents the proper needle and diaphragm to any make record. Every artist, every band, every selection, whether foreign or American, may be played at its best on The Brunswick.

The TONE AMPLIFIER is part of The Brunswick Method of Reproduction. It solves an old problem in acoustics.



It is oval in shape; and moulded of rare hollywood. Like the sounding board of a fine violin it is built entirely of wood. It is absolutely free from metal.

By this method of projecting sound, tone waves are unrestricted and allowed to unfold into full rounded tones that are rich, mellow, and, above all, natural.

Mrs. Richey Hostess.

Mrs. J. D. Richey was hostess to the P. E. O. Chapter Saturday afternoon at her home on S. Walnut St. The program was carried out in the Christmas spirit with Miss Carrie E. Hopkins as leader for the afternoon. Mrs. Fred Kurtz gave the "Story o' Christmas" and Mrs. W. O. Garrett told of "Christmas in Other Lands." "A Christmas Story" was told by Miss Hopkins. Miss Nell Hudson played a group of piano selections, "Slumber Song," "Christmas Eve" and "With Song and Mirth." Mrs. T. L. Wilderman gave two pleasing piano numbers, "Holiday Pleasure" and "The Secret". The concluding number was a vocal solo, "Fleeting Hour" by Mrs. J. E. Bailey. The members were asked to remain for a social hour and refreshments were served by the hostess. The table was centered with decorations suggestive of Christmas and was lighted by red tapers held in crystal candle sticks. Fifteen members were present.

Perform Operation With Aid of Electric Flash

Adams, Mass., An operation partly performed with the aid of electric flashlights is one of the most unusual events that has ever taken place in this section. While Drs. M. M. Brown and C. H. Choquette were ready to operate on Miss Urba Cyr at the Plunkett Memorial hospital the lights went out owing to trouble wit hteh town's electric lighting system. A hurry call was sent to a hardware store for flash lights, and when they arrived they were turned on and the operation was begun.

Miss Cyr's condition is satisfactory.

BAD WHISKY KILLS 12 IN NEW YORK IN 2 WEEKS.

New York—Whisky containing wood alcohol has caused 12 deaths here in 2 weeks, according to the records o the city medical examiner. Saloon keepers responsible for its sale have not been arrested, and whisky containing a large percentage of wood alochol is being freely sold throughout the city. The office of the medical examiner has issued the following statement in an effort to check the evil: "Every man who goes into a saloon today, and takes a glass of whisky exposes himself to death. With few exceptions the liquor is heavily diluted with wood alcohol which, as every one knows is poison."

The NEW EDISON

Nights are growing deeper. Outdoors is getting rougher. The young people belong around the living-room fire. Get them into the habit of enjoying their evenings at home. Just put the job up to the New Edison.

Do the young folks want to dance? all right—here's the newest fox-trot. Sing?—here's the song that's got all Broadway humming. Learn?—all opera opens its pages.

Not mere talking-machine music, mind you! But RE-CREATED music! The very music which, given at some notable concert, draws people miles through any weather. The New Edison gives the life, the spirit, the enthusiasm, the soul of the music,—gives you everything the living artist can give, excepting his physical presence.

If you'll stop in for a few minutes, we'll show you what a New Edison really is,—and how you can have it sent right out to your home.
